Professional Summary

Capital Markets professional with 3 years of experience in trade lifecycle management, pre-matching, post-trade settlement, and exception handling across US and EU markets. I have worked in financial operations supporting global institutions — Barclays (via Accenture) and Goldman Sachs (via eClerx). I am currently studying MSc in Business Management & Finance in Berlin and looking for roles in post-trade settlement, pre-matching, or market operations where I can bring my hands-on experience to a modern, technology-driven environment.
